

Starting your lecture with multiple choice questions

Starting your lecture with Multiple Choice questions

- Why use MC-questions?
- How to present questions properly.
- How to present solutions.

Why to use MC-questions?

Write down all answers that apply.

- a) To wake up and motivate your audience.
- b) To repeat content from your last lecture.
- c) To demonstrate how little your audience knows.
- d) To exercise questions that might occur in exams.

How to present your questions?

Write down all answers that apply.

- a) Start with the most difficult question.
- b) Display the alternative answers and read them aloud.
- c) Share the questions on paper.
- d) Display the alternative answers and wait quietly.

How to present the solutions?

Write down all answers that apply.

- a) Just say what was right and wrong.
- b) Display the question again and ask for suggestions.
- c) Show the solution and ask who got it right.
- d) Explain the answers one by one.
